

FURNITURE CLUB MEMBERS OFFER SOLUTIONS FOR ANTIMICROBIAL SURFACES:

PLEXIGLAS® XT ANTIMICROBIAL BY RÖHM GMBH

Posted on LinkedIn 08. June 2021

With PLEXIGLAS® XT Antimicrobial, Röhm offers a customized solution that is especially suitable as a visually appealing hygiene protection in areas with heavy public traffic, as a sneeze guard, partition or enclosure. Besides the usual properties of PLEXIGLAS® XT, the extruded sheet material is characterized by the following special features:

- Antimicrobial coating on both sides
- Excellent abrasion and chemical resistance

Its antimicrobial surface makes PLEXIGLAS® XT Antimicrobial effective against a broad range of bacteria and viruses. And thanks to its robust surface, the material is also easy to clean, making it ideally suited for surfaces that require frequent cleaning, such as hygiene protection at the point of sale.

The antimicrobial effect has been confirmed by an independent testing institute. The relevant certificates are available on request.

Please visit us on Internet: www.furnitureclub.de. Röhm furnishings apply for furniture industry, hotel interiors.
