

## FURNITURE CLUB MEMBERS OFFER SOLUTIONS FOR ANTIMICROBIAL SURFACES:

### MIRO<sup>®</sup> CU BY ALANOD GMBH & CO. KG

Posted on LinkedIn 15. June 2021

Developed with you in mind, MIRO<sup>®</sup>CU was the logical response to the Covid-19 pandemic as its copper coating makes this surface antimicrobial. It is a high-tech, material manufactured in a nanotechnology process (PVD). The elementary copper is bonded onto the anodised aluminium base and builds a lasting connection.

Add it to any piece of furniture, shop interior or counter to create additional protection for customers and employees:

- Lifetime effectiveness against germs (kills 99.99 % of them)
- Works from the very first second, without any chemicals
- Easy to apply and remove

Please visit us on Internet: [www.furnitureclub.de](http://www.furnitureclub.de). Alanod furnishings apply for furniture industry, hotel interiors, marine interiors, contract business, micro apartments.
